INSTANT LIBRARY

There have been many reports of the use of the *in vitro* test for the detection of *Salmonella* in food. The test is simple and rapid, and it is possible to detect the presence of *Salmonella* in a sample of food in a matter of hours. The test is also very sensitive, and it is possible to detect the presence of *Salmonella* in a sample of food in a matter of hours. The test is also very specific, and it is possible to detect the presence of *Salmonella* in a sample of food in a matter of hours.

Each type of "VIRTUAL" contains 1 or 2 "VIRTUAL" Lists. The use of the "VIRTUAL" lists, together with a "VIRTUAL" function, can be of considerable use. (See "VIRTUAL" function and the comments to it, especially.)

Working in the spirit of the INSTANT LIBRARY's commitment to the SOCIAL JUSTICE Challenge, one of the focus areas of the program,
